## Something New

We are passionate about our wine selection and feel it is important to be able to offer a great selection of wines from across the world and from places people do not get to visit. This month we are happy and excited to be working with Sula Wines of India. After Liam visited the vineyard at the end of March he could not wait to bring the wines back for The Pheasant's guests to enjoy. In 1996, Rajeev Samant planted the first wine grapes in Nashik and today this region is not only India's premier wine-growing region but also 80% of India's wine is produced here. Spread over a total of over 3000 acres, Sula's owned and contracted vineyards are home to some of India's finest grapes and the site of the latest in viticulture innovation and technology. Farmers are partners in their journey to produce excellent wines and they work hand-in-hand to secure supply, provide on-ground training and support, and share the latest in sustainable winegrowing practices.

# SAINT CLAIR

## FAMILY ESTATE

Saint Clair Family Estate is owned by Neal and Judy Ibbotson, viticulture pioneers in Marlborough since 1978. Grapes were originally supplied to local wine companies; however a desire to extend the quality achieved in the vineyard through to the finished wine led to the establishment of Saint Clair Family Estate in 1994.

The Saint Clair name originates from the vineyard property, first settled by the Sinclair family. Pioneer James Sinclair built one of the first homes in Blenheim and was closely associated with the early development of the town. Over time the name of the property reverted to the original Saint Clair.

The company's mission is to create world-class wines that exceed their customers' every expectation. Neal Ibbotson combines his extensive viticultural expertise plus Marlborough's mix of climate and soils with the talent of one of New Zealand's leading winemaking teams.

Wines from the first vintage all won medals including gold

From 1994 when wines from the first vintage all won medals including gold, the name Saint Clair has been synonymous with quality and its award-winning record continues today.

In 1895 Edward Norton founded Bodega Norton and became an ambassador for quality Argentinian winemaking. The team is united by a passion to honour the pioneering founder and the wines that still bear his name. In 1989, Bodega Norton was acquired by Austrian businessman Gernot Langes-Swarovski, who aims to make wines recognized worldwide for their quality. Consequently, Bodega Norton is an internationally well-known label of Argentine wine, respected for its quality.

#### CHIEF WINEMAKER AT BODEGA NORTON DAVID BONOMI

Part of a new generation of young, innovative winemakers causing a stir in the industry, David first discovered his passion for wine working in his father's vineyard. Born in Mendoza, Argentina, to a family of Italian immigrants with winemaking heritage, David explains: "The relationship with wine, in our family, was always our livelihood." As his enthusiasm for the wine world grew he decided to study a degree in Winemaking at Don Bosco University and Juan Agustín Maza University. Since then, David's wines at Bodega Norton have been awarded more than 95 points, recognized by critics as among the best in the world. And in 2017, Decanter magazine included David in its list of the Top 10 Best Winemakers in South America.

# Cakebread Cellars

Stephanie Jacobs  
Winemaker at Cakebread Cellars

Stephanie Jacobs was appointed Cakebread Cellars' Winemaker in 2017, becoming only the fourth winemaker in the winery's 40+ year history. Stephanie leads all winemaking operations at Cakebread Cellars, creating consistent, balanced, age-worthy wines that pair nicely with good food and good friends. Stephanie joined Cakebread Cellars in 2004 as the Enologist and was promoted to Assistant Winemaker in 2008. In 2012, she was promoted to the Pinot Noir Project Leader, which coincidentally, is her favorite varietal of Cakebread Cellars wines.

Stephanie first became interested in wine while participating in an exchange program in France. She decided to turn this passion into a profession while studying at the University of California at Davis. While she first enrolled in the school's Fermentation Science program to pursue a career in brewing, she realized in her required winemaking classes that this is the path she wanted to pursue. Upon graduation, Stephanie began her winemaking career working at a small winery in the Sierra Foothills, learning about cellar operations and lab analysis. In 2001, she went to work for Bogle Vineyards as their Enologist. Stephanie is active in the Napa Valley Wine Technical Group, and in her spare time, can be found cooking or in her vegetable garden with her daughter, Mae.
